HomeSafe ID Re-Registration Request

The purpose of this form is to help pet owners re-register their pet's microchip from HomeSafe ID to Global Micro Animal Registry, free of charge. This service is available to all Australian pet owners currently registered with HomeSafe ID and has been approved in all states.

To proceed, the person listed as the pet's owner on this form must either be the current registered owner with HomeSafe ID or provide supporting documentation confirming a legitimate transfer of ownership. In some cases, we may still need to contact the registered owner on HomeSafe ID to verify the request.

This process ensures that your pet's microchip remains active and linked to the correct owner, helping to protect them in case they ever go missing.

When complete, please email this form and any supporting documentation to help@globalmicro.com.au.

PLEASE NOTE: Forms can be emailed, faxed or posted to Global Micro Animal Registry as per the following:
